<b>Description</b> <p>This Secure Mini Dukt™ Through-Wall Kit provides a 1" through-wall pathway connecting two sections of Secure Mini Dukt™ Tube. It is supplied in kits with 12" or 24" NPT threaded pipe and two internally threaded Interface Sleeves (INF). By designing the Secure Mini Dukt™ INF with internal rather than external threads, Holocom improved installation efficiency in concrete walls by eliminating the need for a larger diameter coupler and corresponding larger concrete core.</p>
